- e) using the application in any way which would be in breach of the current law, principles of morality, infringe any personal rights of third persons or interests of the Controller of Personal Data.

Server logs

Using the Line App is related to sending requests to a server on which the application is stored. Each such request is stored within server logs.

The Logs include, among others, the IP address, date and server time, information about the browser and operating system used by the user. Logs are gathered and stored on the server.

Any data stored within server logs is not paired with any particular person using the service and it is not used by the CPD to identify its users.

Server logs are only used as auxiliary material for the purpose of administering the application and their content is not ever disclosed to anyone other than authorised server administrators.
